OBJECTIVE

This course enables the students to progress in mastering French in the 5 language skills: written comprehension, oral comprehension, written expression, oral expression, and interaction, based on the CEFR criteria.

ASSIGNMENT IN GROUPS

An online placement test (a language assessment system for formative purpose in French as a Foreign Language) is used by the CUEF to assign students to a level group.

EDUCATIONAL APPROACH

The teaching methods used in the classroom make the learners actors of their learning. They are based on a linguistic training (oral and written comprehension and production activities) and the deepening of the grammatical and lexical aspects corresponding to the level of the group.

Classes focus on oral communication and promote the interactions between the learners and between the learners and the teachers.

The teaching aids are varied. The teachers use various textbooks as well as authentic documents - iconographic, textual, visual, audio - and address various subjects.

ASSESSMENT

The assessment is done in the form of a continuous evaluation of the 4 language skills (written and oral comprehension and production).

A transcript indicating the entry level and the level reached at the end of the session is issued at the end of each monthly session.

ADDITIONAL ACTIVITIES

Video-conferences on various cultural themes are organized by our cultural coordinator. They are accessible free of charge to the learners registered in the distance course: discovery of the Grenoble region, the regional gastronomy, etc.
